

Accredited Courses

“Where everyone has a voice”

We teach a range of different accredited courses at Brackenfield School.

At Key Stage 4 pupils make options and then work towards AQA GCSE and Entry Level Qualifications.

These qualification subjects include English, Maths, Science, ICT, Art, History and Geography.

Elsewhere within school there are other accredited courses on offer to the students. Under the YMCA Skills for Life qualification, students have opted to take part in different lessons which will provide them with key skills. These subjects include car and vehicle maintenance, Hospitality, catering and retail and Horticulture.

All of the above accreditations are earned through coursework and examinations undertaken throughout the school year.
