

Ash

“Where everyone has a voice”

Ash is a class of 7 pupils ranging from Year 6 – Year 10.

We are based in a separate building in the secondary part of school called the Annex. We have our own toilets and kitchenette. We also have access out onto the playground and field.

Though we undertake most of our lessons in the Ash classroom, we have easy access to specialist areas for Science, Food Technology, Design and Technology and Art.

We follow a functional life skill based curriculum which will prepare us for an independent adult life. We focus on Numeracy and Literacy in the real world, so we are often out and about using the resources out in the community to help us learn, such as shopping, public transport and local amenities. We also go swimming each week as part of our PE curriculum.
