

# Food Technology

“Where everyone has a voice”

**F**ood Technology in school consist of practical sessions where pupils make products and solve real life problems for themselves.

They become competent in a range of cooking techniques and gain understanding of how to use equipment safely. They begin by cooking dishes they can make for themselves and their families.

Food Technology is run as part of the carousel of activities throughout school, as well as forming part of the Enrichment activities that take place every week.

Every class in KS3 has the opportunity to take part in cooking each half term. In KS4 pupils are given the opportunity to follow an accredited course through ASDAN.
